# Open Import Data Wizard

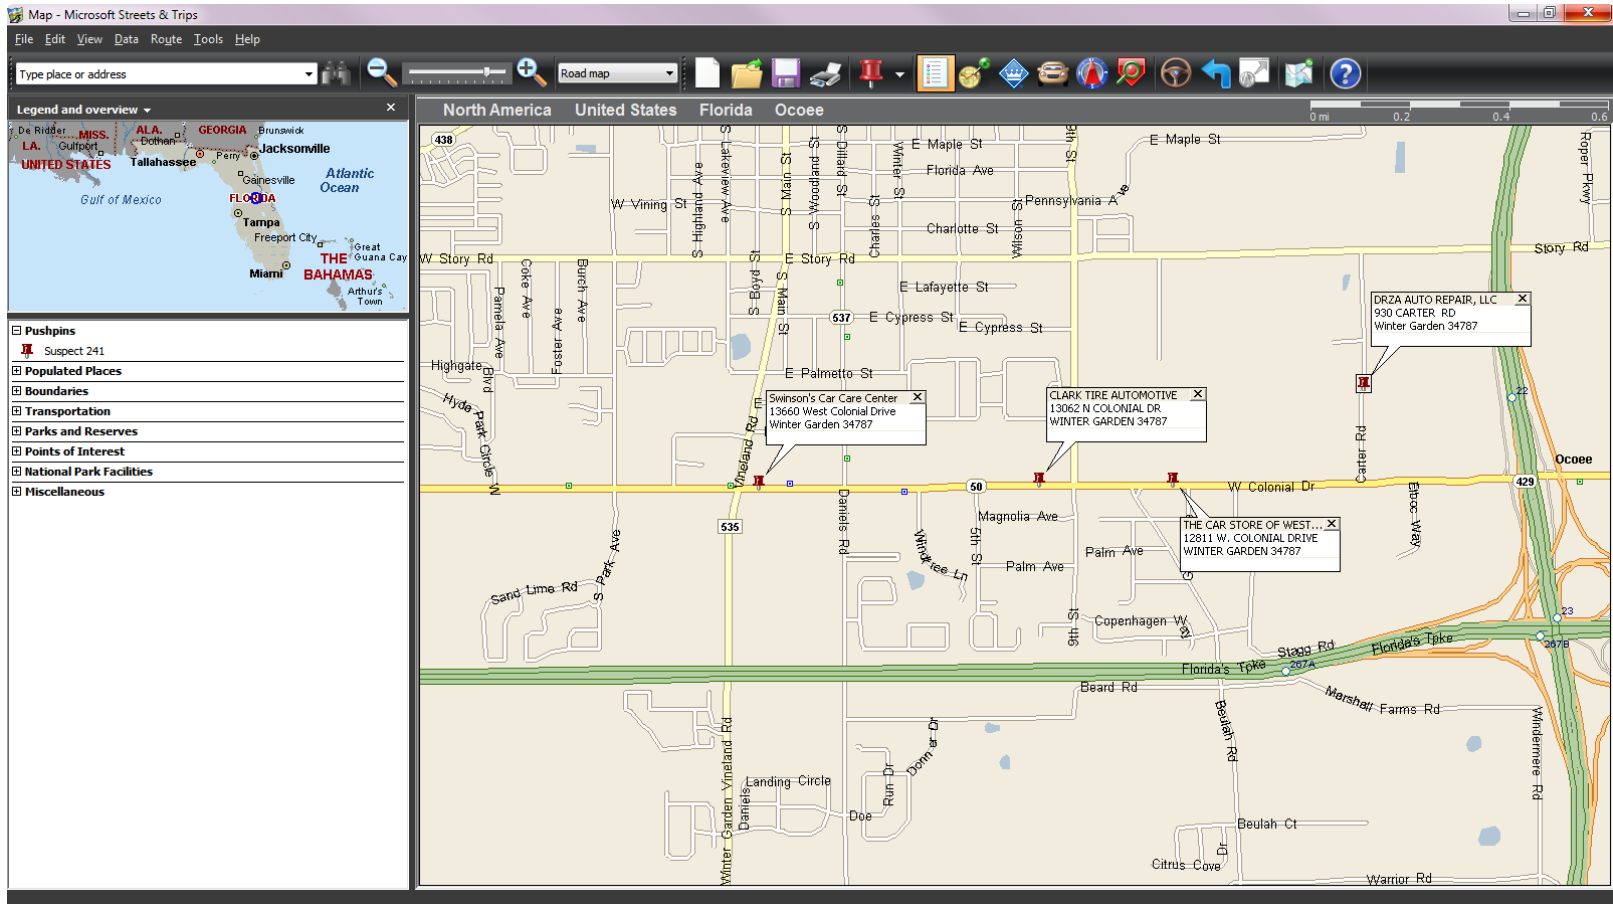

# Choose List

# Map Import Contacts

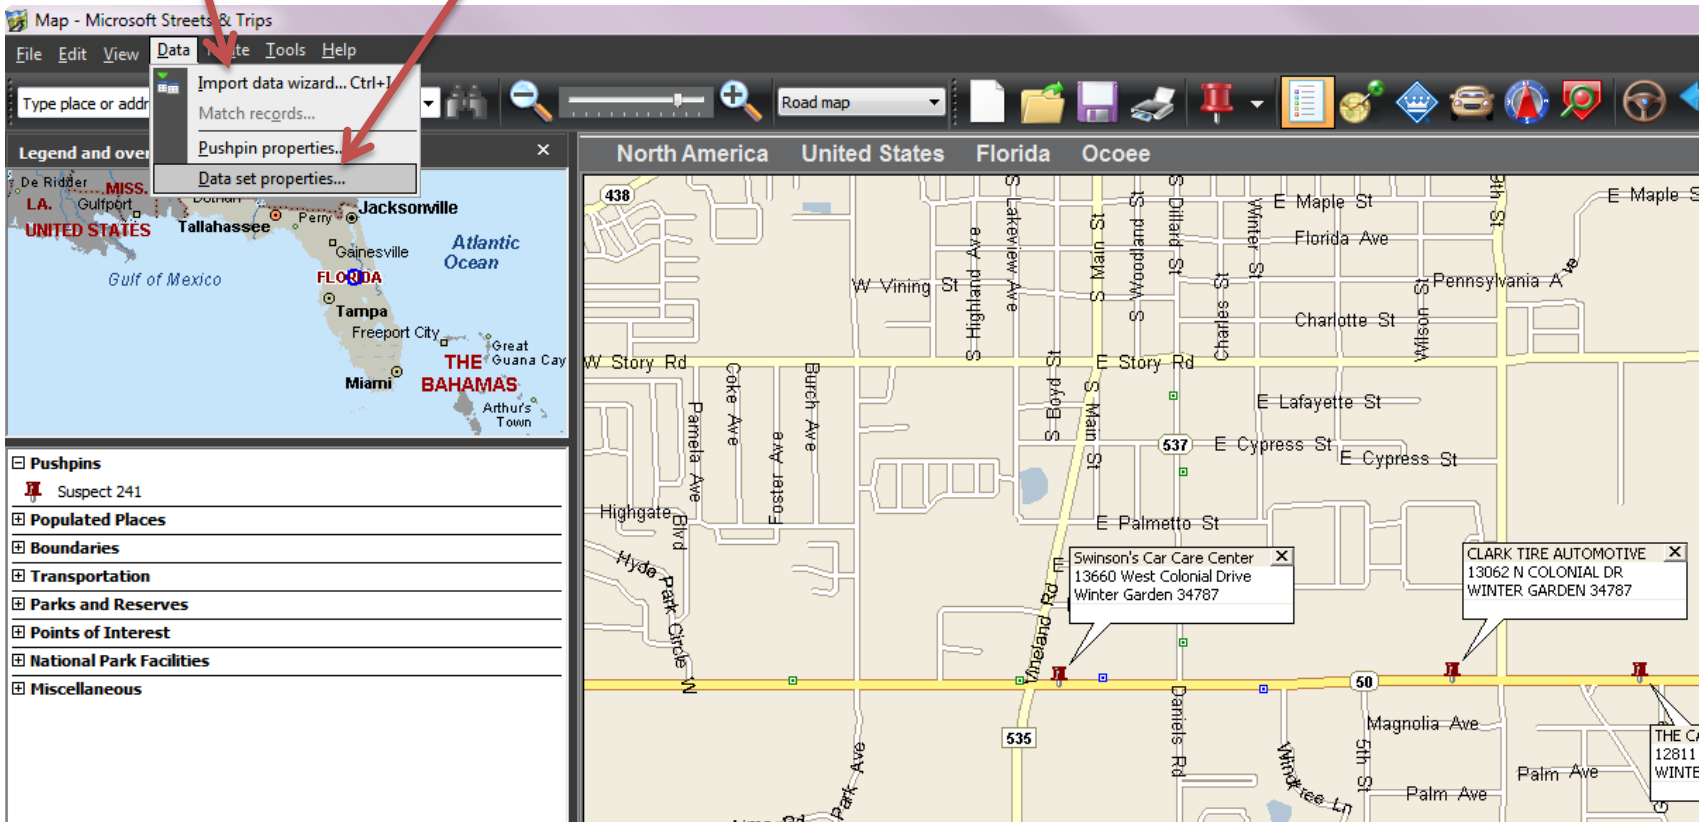

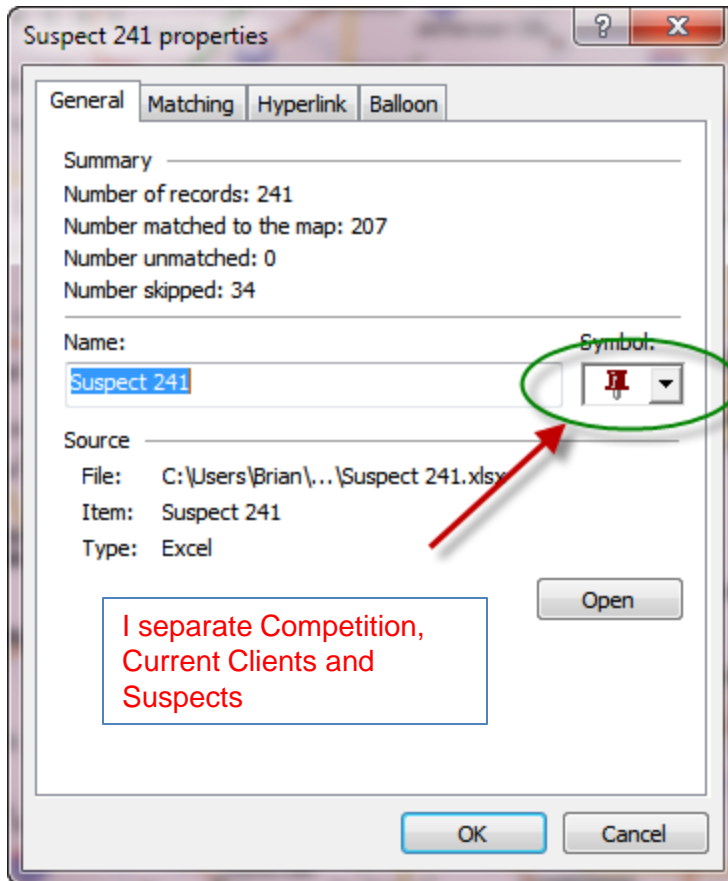

# Mapped Contacts

You can Import Multiple Lists

You can Modify Push Pins

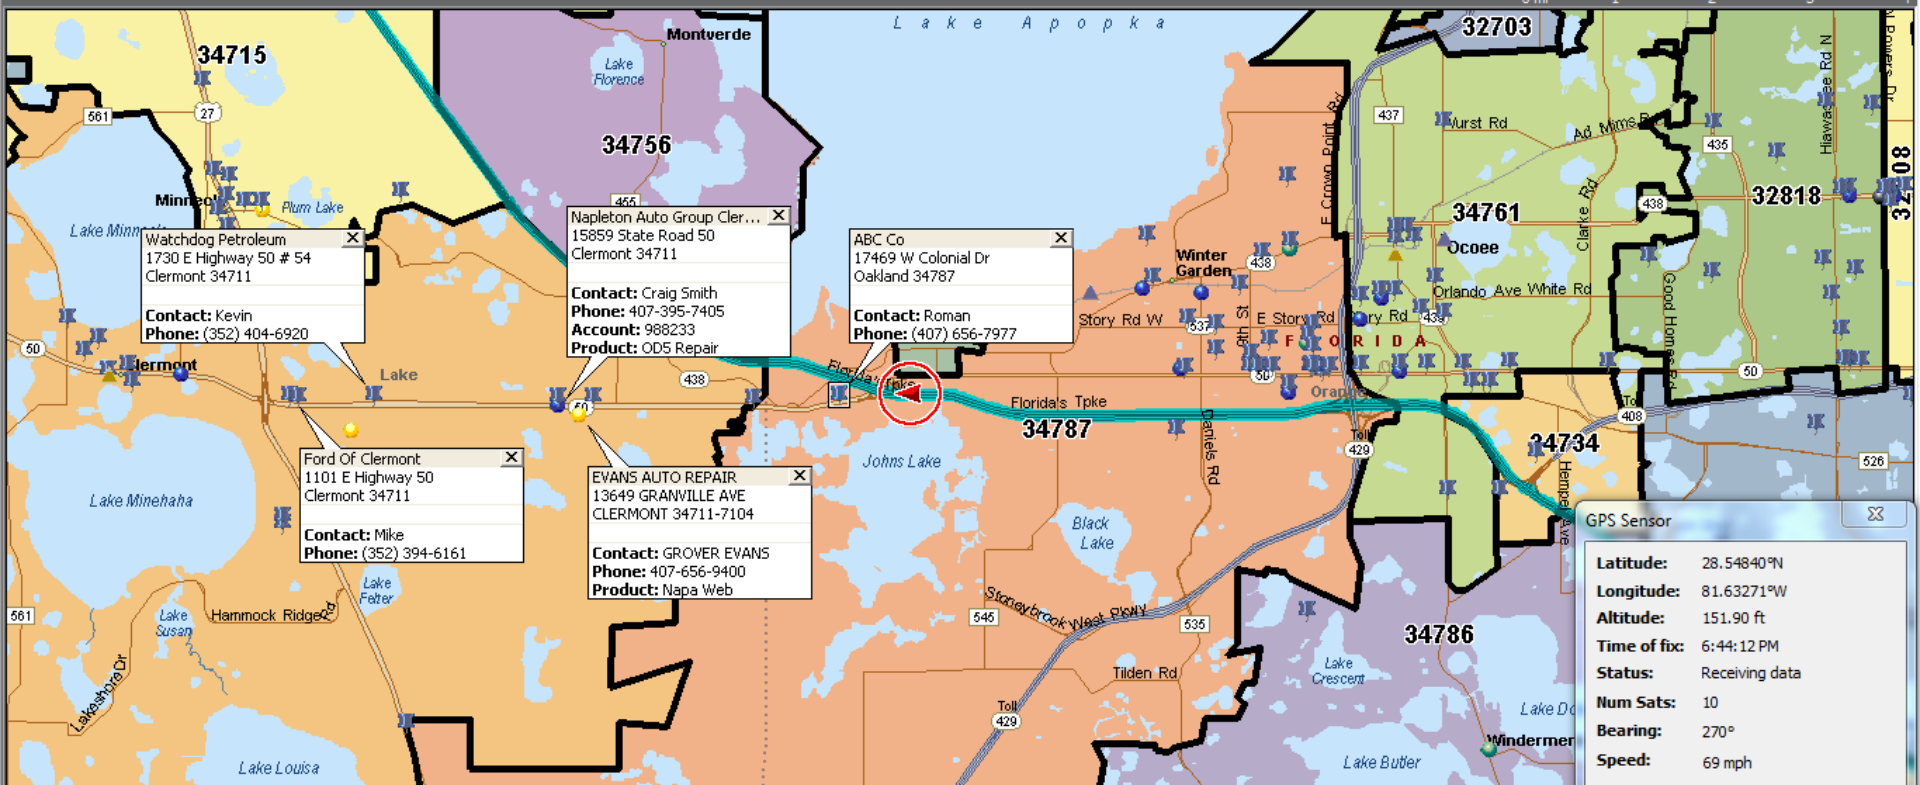

I personally use Map-Point with a GPS tracker as you will see on last screen.  
I also separate my push pins by Napa, Alldata, Suspects, ShopKey, Mitchell Clients and Prospects  
I hope this helps !!  
I do not endorse or promote the use of this while driving and I'm certain that Mitchell 1 will not endorse the use of this GPS while Driving.
